<td>2&quot;</td>
<td>313S</td>
<td>No</td>
<td>RHR</td>
<td>Hager</td>
<td>3880</td>
<td>Single</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

#### Notes:

1. Cylinder cut-out (if applicable) will be 1-1/4" Diameter for Exit Device use, and 1-1/2" Diameter for Mortise Lock use. If special cut-out is needed, please contact customer service.
2. Cylinder does not come with trim, cylinder must be ordered separately.
3. Hager will provide a customized drawing of the trim for your approval based on the options you have chosen. Production will not begin until approval has been received.
4. It is necessary to provide Hager with a template of your Exit Device/Mortise Lock each time you order to ensure correct placement of cylinder cut-outs and attached mounting studs.
5. Make-To-Order items accepted by Hager are non-cancelable except with prior written consent from our St. Louis office. Approved cancellations may be subject to a service charge.
6. Under no circumstances will non-stock, make-to-order, or discontinued product be accepted for return unless it is due to Hager error.
7. When choosing handing, list the handing of the trim, not the handing of the door. See chart below for help with handing. Dummy trim does not require handing.
8. 313L cannot be used on inswinging doors.
