HAGER COMPANIES ADDS NEW ECONOMY LOW ENERGY AUTO OPERATOR

ST. LOUIS, December 1, 2015: Hager Companies is pleased to include the 8200 Series Low Energy Power Operator to our Low Energy Power Operator line. Intended as a value rich, economical solution for ADA non-fire rated openings, the 8200 Series from Hager is a non-handed power open, spring close mechanical operator designed for doors up 48" wide and up to 275 lbs. The 8200 delivers exceptional long lasting performance, is ADA compliant, ANSI A156.19 compliant and listed to UL 325.

Bob Wilkins, Director of Product Development and Marketing said, "The 8200 Series gives Hager Companies customers a feature rich, proven and reliable low energy auto operator at an ultra-competitive price point."

The 8200 Series Low Energy Power Operator is available for order immediately and ready to ship. If there are any questions about this new product offering, please contact Gordon Holmes, Product Manager at gholmes@hagerco.com.

Founded in 1849, St. Louis-based Hager Companies offers more than 6,000 full-line quality door hardware products under one brand name. With 12 product lines including, commercial and residential hinges, two types of continuous hinges, exit devices, locks, door controls, trim, threshold and weather stripping, sliding door hardware, access control products and Euroline our European hardware line. Hager focuses on architectural hardware that exceeds today's building standards and are built to last. For additional information, visit www.hagerco.com
