Hager Companies 139 Victor Street, St. Louis, MO 63104 (800) 325-9995 www.hagerco.com
2 INSTALL TRACK AND HARDWARE

- Line up track flush against jamb on guide door side for 2-door, center track in opening for 4-door (Track length should be 1/8" less than opening width)
- Place top pivot bracket and hangers loose in track before securing track with (#8x1-1/2") screws
- Position top pivot bracket center 2-1/8” from jamb and hand tighten, secure bottom pivot with (#8x3/4”) screws.
- Drill a 1-3/4” deep 3/8” diameter hole, at the center of the door thickness, 1-3/4” from the bottom edge of the door nearest to the jamb (Fig 1)
- Center quick release and pivot plates on door thickness
- Mount top and bottom pivot plates 1-3/4” from center to door edge (Fig 1)
- Mount quick release plate 1-1/4” from center to door edge (Fig 1)
- Secure plates onto door with (#8x1-1/2”) screws
- Drill 3/16” guide hole in center of guide door and secure pull with (#8x1-3/4”) screw
- To install hinges, place doors side by side as if folded. Secure with (#10x3/4”) screws (Fig 2)

3 HANG DOORS

- Fold doors together and engage top pivot into top pivot bracket.
- Set bottom pivot assembly into floor plate.
- Slide carrier bolt into quick release mount plate and close latch.

4 ADJUST AND FINISH

- Adjust carriers and pivots so door is square with frame
- Slide jam bracket carrier in or out to adjust tilt.
- Install aligners in back, about 12” from bottom with (#8x3/4”) screws. (4 door install only)
- Install stops between top guide and side jamb furthest from pivot for 2 door and in the middle between the two pairs of doors for 4 doors.
