PROA

The Centro Medico Zambrano Hellion is an innovative medical center in Monterrey, Mexico that brings together highly specialized medical care, research, and continuing education to Mexico and to the world. It features a new, 105-bed hospital that houses 300 doctors and cares for 50,000 patients each year--10,000 of which will be hospitalized. The medical center also includes a number of institutions that specialize in specific areas of medicine.

Hager provided a full line of quality door hardware, including full mortise hinges, 3800 Series sectional mortise locks, 311H push/pull latches, 5200 Series door closers, 198S door protection plates, threshold and weatherstripping products, and much more.
