

## Hager University Latest Touchless Hardware Lesson!

Hager University is proud to offer their latest lesson on Touchless Hardware.

The COVID-19 pandemic is changing the way we, as a society, move about our daily lives. As a result, facilities are taking a look at how people move through their buildings and what products can help them reduce the spread of germs.

To learn more about this lesson, and the many other topics offer by Hager University as noted below, please contact your local Hager representative today!

Sincerely,

James Stokes  
Director of Corporate Training
