

## HS4 ELECTRONIC ACCESS CONTROL 2-DOOR STARTER KIT

It's a perfect opportunity to transition from mechanical to electronic locks. Hager powered by Salto has a 2-Door Starter Kit with everything you need to get started. It's as easy as picking the color of the wall reader.

Hager powered by Salto has revolutionized access control with a pioneering approach to stand-alone, battery powered electronic locks. Using the SALTO Virtual Network (SVN) data-on-card technology and wireless standalone locks, we can combine real-time capabilities, without using wires or mechanical keys, at a fraction of the cost of regular access control systems.

Take the first step toward wire-free access control with the Hager powered by Salto 2-Door Starter Kit.

### Hager powered by Salto brings:

- Security
- Flexibility
- Efficiency
- Usability

### Simple yet powerful:

- 4 Million Users
- 65,000 Doors
- Unlimited Access Levels
- 1,024 Zones

Wire-free

Design

Extended Management

Ancillary Hardware

More Security

More Flexibility

Greater Efficiency

Better Usability

**ProAccess SPACE** – Powerful and flexible access control software made easy. Easy to install. User-centered interface. Efficient browser-based software provides for multiple operators simultaneously while eliminating installation of client software at multiple workstations.

**Control Units** – Make it easier to bring access control to your facility via the SALTO Virtual Network (SVN) and reduce costs, thanks to the ability to control and manage multiple doors through one Ethernet connection and one IP address.

**SALTO USB Encoder** – Desktop device which reads, encodes and updates SALTO cards.

**SALTO Wall Reader** – Combines modern, sleek design with exceptionally clear LED signaling. Exchanges the encrypted data from credentials via SALTO Virtual Network (SVN) technology.

**Portable Programming Device (PPD)** – The NFC PPD is the messenger between the computer and wire-free locks for system initialization and firmware updates. Can also be used as a diagnostic tool and for emergency openings.

**SALTO Credentials** – Easy to use. Features SALTO Virtual Network (SVN) compatibility and includes contactless high-frequency RF 13.56 MHz high security credentials.

# What's Included:

ProAccess SPACE

WRDB0A4 (W or B)

CU42E0US

PPD800

EC90USB

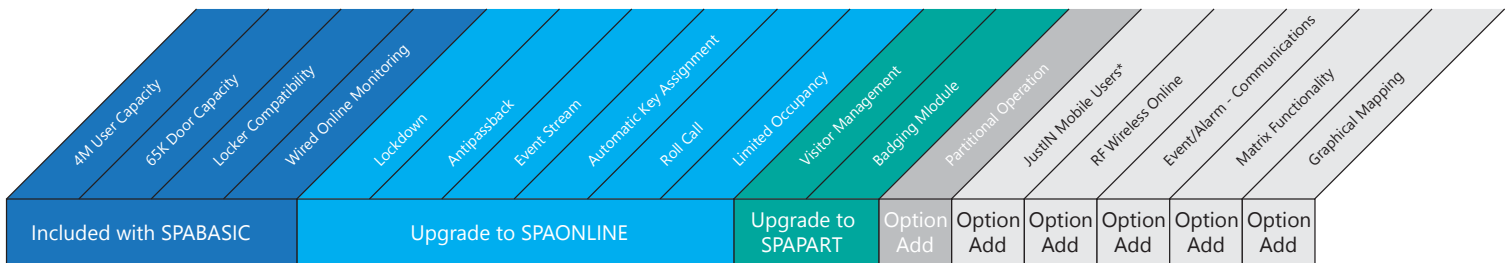

PCM04K-50

STARTER KIT	SPABA2SDWB	SPABA2SDWW	PART #
SPACE BASIC SOFTWARE			SPABASIC
2.0 CONTROL UNIT			CU42E0US
WHITE WALL READER (2)			WRDB0A4W
BLACK WALL READER (2)			WRDB0A4B
NFC PPD			PPD800
USB ENCODER			EC90USB
PACK OF 50 CREDENTIALS			PCM04K-50

## Software Functionality and Options

SALTO Space software doesn't require door licensing like other solutions do. Our SPABASIC license is ready for up to 65,000 access points and 4 million users. We don't ask for software update fees. Buy our product once, use it for life.

\*Justin Mobile requires upgrade to Ethernet encoder. First year's annual subscription free of charge.
